## MESSAGE FROM THE OFFICE

### Happy New Year and Welcome Home!

I hope your holiday season was filled with warmth, good company, and plenty of relaxation. For those of you who are just getting home, we have missed you, and welcome home! For those of you that are new, welcome home and we can't wait to meet you! Stop by the offices and say hello to Mary, our new Activity Director! You never know what's going to happen at the events when she's there.

Just a few reminders as we go into peak season. There will be a lot more RVs coming this month. Please do not park on empty RV spaces without letting the office know. One of the many great things about travelling is meeting new people, but not when you have to ask them to move their car after driving all day.

For everyone's safety, please observe our 10 mph speed limit.

Please do not park on the street for long periods of time or overnight. Being that we only have a population of a certain age, emergency vehicles come in more regularly than we would like to think about. Parking in your driveway or in a designated paid parking space is much appreciated.

Enjoy all the activities that are happening this month and let us know what your favorite is!

Rachel Margolis  
Park Manager

### Happy 2026, Rincon!!

We may be halfway through the season, BUT we are just getting started! Hang on! January is jam-packed with dances featuring Rincon favorites and even a few surprises.

As the evenings cool, rattlesnakes might seek the warmth of a cozy asphalt street after sundown, and you may see or hear coyotes or javelinas. For maximum safety carry a flashlight when you are walking at night, keep pets on a leash, and remain alert to any possible encounters. Give space to javelinas and coyotes. If you see a rattlesnake, they are valuable to our ecosystem and can be relocated by our volunteer. Contact Dale (541) 291-2272

## Been Told Nothing Can Be Done for Neuropathy? Me Too! They Were Wrong!

Successfully Treating Neuropathy Since 2008

Let me tell you my story: I suffered with neuropathy for over 8 years, tried a lot of different things, on different medications and it kept getting worse. When we got down here from Michigan this past fall, my neighbor, who has suffered with neuropathy for years walked across the street to welcome us back. **The amazing thing was, she walked over without her walker.** I had never seen her without her walker. I asked her what she had done, and she walked back to her house and came back with a card for the doctor she had seen after we left last year. I gave his office a call to make an appointment, it was on a Thursday, his office was closed, but the doctor answered the phone. He explained he would like me to attend one of his free workshops before coming in, it would answer all questions and if I still wanted to come in, I could make an appointment then. His workshop was informative, he explained things unlike any doctor I had seen up to that time, how neuropathy started, what is done for most people, why he does what he does. I was mostly impressed that he was straight forward, told the pros and cons. I'll bet 85 to 90 percent of the other patients I talked to in his office were getting good results, like I did. My pain decreased by at least 50% in the first 3 weeks. I would highly recommend anyone with peripheral neuropathy, go to this workshop, I know you will be glad you did.
