MESSAGE FROM THE OFFICE

February finds us right in the sweet spot of our high season, and the park is truly at its best. With mild days, cool evenings, and a full calendar of activities, this is the time of year many of us look forward to all summer long. Whether you've been here since the first arrivals of fall or just rolled in recently, the energy around the park reflects what makes this community so special.

By now, familiar faces have become friends, routines are well established, and the park feels like home. Morning walks, afternoon games, and evening gatherings fill our days, while laughter and conversation echo throughout the community. February is a great time to try something new—join an activity you haven't attended yet, invite a neighbor to coffee, or volunteer to help with an upcoming event.

As we reach the halfway point of the season, it's also a good moment to pause and appreciate the effort that goes into making our park run smoothly. From volunteers who organize activities to staff who keep everything maintained, everyone plays a part in creating a welcoming, enjoyable environment. Thank you to all who lend a hand and help keep our community thriving.

Looking ahead, the weeks will fly by faster than we expect. Be sure to check the activity schedule, mark your calendars for special events, and take advantage of everything the park has to offer before the season begins to wind down. February is the perfect reminder to savor each day—sunshine, friendships, and all.

Here's to a wonderful rest of the season and many more great memories made right here at the park.

Rachel Margolis, Park Manager

Rene has an exciting line up of Shuttle trips and food trucks. Whew, it's going to be a busy month.....

RINCON COUNTRY EAST PHOTO CLUB

Anyone interested in photography is cordially invited to join the Photo Club. The club meets monthly, on the first Tuesday of the month, at 6:30 pm in the Arts & Crafts room. It includes a few skilled photographers ready to share their knowledge, but most members are "point-and-shoot" amateurs who would just like to learn more.

The club's atmosphere is friendly, jovial, and helpful. Members exchange information on cameras and phone cameras, photographic techniques, and current photographic exhibits in the Tucson area. They also go together on at least one photographic excursion per month, frequently sharing lunch afterwards.

The club also hosts an annual Photo Show in March (in 2026, on Wednesday, March 11). All RCE residents are invited to enter matted photos for judging and appropriate rewards. Also, for many years a group picnic has been held at the end of the season, as a farewell and as a last friendly meeting.

Been Told Nothing Can Be Done For Peripheral Neuropathy? Me Too! They Were Wrong!

"Let me tell you my story: I suffered with neuropathy for over 8 years, tried a lot of different things, been on different medications and it kept getting worse. When we got down here from Michigan this past fall my neighbor who has suffered with neuropathy for years walked across

the street to welcome us back. The amazing thing was, she walked over without her walker. I had never seen her without her walker. I asked her what she had done, and she walked back to her house and came back with a card for the doctor she had seen after we left last year. I gave his office a call to make an appointment, it was on a Thursday, his office was closed, but the doctor answered the phone. He explained he would like me to attend one of his free workshops before coming in, it would answer all questions and if I still wanted to come in, I could make an appointment then. His workshop was informative, he explained things unlike any doctor I had seen up to that time, how neuropathy started, what is done for most people, why he does what he does. I was mostly impressed that he was straight forward, told the pros and cons. I'll bet 85 to 90 percent of the other patients I talked to in his office were getting good results, like I did. My pain decreased by at least 50% in the first 3 weeks. I would highly recommend anyone with peripheral neuropathy, go to this workshop, I know you will be glad you did."
