MESSAGE FROM THE OFFICE

With the beautiful weather we enjoyed in February, we look forward to a March that is full of energy, connection and fun! We are excited to see what new activities the Activity Office has planned, celebrate the closing of a fantastic season, and help you plan for next year. March is a great month for our Annual Appreciation Picnic that lets all of us employees celebrate you, the residents, for making this park the best place to be! We will also host the Volunteer Luncheon to honor everyone that creates the sense of community that continues to encourage connection among each other. Keep an eye out for the end of the year survey as well. We want to continue to make your stay enjoyable, but without your honest feedback, we can only speculate. Be sure to make those reservations before you leave to secure your favorite space! We look forward to all that March has to bring!

Safety from Wildlife

As the evenings cool, rattlesnakes might seek the warmth of a cozy asphalt street after sundown, and you may see or hear coyotes or javelinas. For maximum safety carry a flashlight when you are walking at night, keep pets on a leash, and remain alert to any possible encounters. Give space to javelinas and coyotes. If you see a rattlesnake, they are valuable to our ecosystem and can be relocated by our volunteer. Contact Dale (541) 291-2272

Been Told Nothing Can Be Done For **Peripheral Neuropathy?** Me Too! They Were Wrong!

Successfully Treating Neuropathy
Since 2008

"Let me tell you my story: I suffered with neuropathy for over 8 years, tried a lot of different things, been on different medications and it kept getting worse. When we got down here from Michigan this past fall my neighbor who has suffered with neuropathy for years walked across the street to welcome us back. The amazing thing was, she walked over without her walker. I had never seen her without her walker. I asked her what she had done, and she walked back to her house and came back with a card for the doctor she had seen after we left last year. I gave his office a call to make an appointment, it was on a Thursday, his office was closed, but the doctor answered the phone. He explained he would like me to attend one of his free workshops before coming in, it would answer all questions and if I still wanted to come in, I could make an appointment then. His workshop was informative, he explained things unlike any doctor I had seen up to that time, how neuropathy started, what is done for most people, why he does what he does. I was mostly impressed that he was straight forward, told the pros and cons. I'll bet 85 to 90 percent of the other patients I talked to in his office were getting good results, like I did. My pain decreased by at least 50% in the first 3 weeks. I would highly recommend anyone with peripheral neuropathy, go to this workshop, I know you will be glad you did."
